axle scales

MADE IN AMERICA.

Yard Axle Scale Justification

IMPROVE YOUR BOTTOM LINE.

Economic conditions and the federally mandated CSA 2010 Program, make it imperative to take action in efficiency in every aspect of your business. Most truck terminal locations need to check the axle and gross vehicle weights to ensure they are legal and safe for over the road. Having an on-site Axle Check Weighing System is an invaluable asset to this routine.

GET YOUR JOB DONE WELL— AND FAST.

Installing a Precision Load Yard Axle Scale provides you with a simpler and faster way to get your job done. In addition to truck weight, an installed Yard Axle Scale offers the capability to quickly check-weight trailers from the loading dock.

DAY-TO-DAY OPERATIONS.

Multiply the totals below by 52 weeks to get your annual expenses:

Average number of trucks scaled weekly=_____

Scaling off-site per truck=_____ (\$9.50 average)

Cost of truck and driver based on distance and wait time?_____

Number of additional trucks you could check-weight for efficiency on-site?_____

FLEXIBLE PAYMENT OPTIONS.

We're here to make your transition and installation to your new Yard Axle Scale easy and affordable.

LEASE-TO-OWN.

Lease terms are available for up to 60 months—with payments as low as \$500.00 per month and ZERO down. You own the scale at the end of the lease term!

60 months at \$500.00 per month = \$30,000.

Calculate your savings over just five years!
